About

Vmech Mechanical Contractors is a Hispanic, Small Woman Owned Organization, providing customized HVAC-R solutions in a professional, efficient and safe manner.

We specialize in commercial HVAC replacements, retrofits and new construction in South Florida, managing our projects with detailed control in terms of cost and scheduling, by the use of comprehensive planning, professional software, and experienced project managers.

With our Safety Policies in place, following OSHA Standards and detailed safety practices, we stand behind our commitment to provide healthy and protected environments to all internal and external personnel involved in our projects at any time, by the use of organizational structures, accountabilities, policies and procedures within our company.
